

Solvent Resistant Topcoated PET Films

Product Overview

Solvent Resistant Printable Polyester Facestock

Avery Dennison Hanita solvent-resistant films are specifically designed for industrial and automotive applications where conditions demand resistance to harsh chemicals, ensuring durability and protection.

Our PET films are suitable for printing with Ricoh B110CU ultra-resistant thermal transfer print ribbon and equivalent. Glossy and white matte available.

Benefits

- Exceptional chemical resistance (MEK, Toluene, IPA, Ethanol and water).
- High durability with no additional overlamine.
- Printable by Ricoh B110CU ultra-resistant TT print ribbon.

Applications

- Industrial, pharma and automotive labeling applications with harsh environmental conditions.

About Avery Dennison

Avery Dennison Corporation (NYSE: AVY) is a global materials science and digital identification solutions company. We are Making Possible™ products and solutions that help advance the industries we serve, providing branding and information solutions that optimize labor and supply chain efficiency, reduce waste, advance sustainability, circularity and transparency, and better connect brands and consumers. We design and develop labeling and functional materials, radio frequency identification (RFID) inlays and tags, software applications that connect the physical and digital, and offerings that enhance branded packaging and carry or display information that improves the customer experience. Serving industries worldwide – including home and personal care, apparel, general retail, e-commerce, logistics, food and grocery, pharmaceuticals and automotive – we employ approximately 35,000 employees in more than 50 countries. Our reported sales in 2024 were \$8.8 billion. Learn more at www.averydennison.com.
